Mobilising the field workforce

WELCOME TO PERVASIC

Pervasic is the UK market leader in advanced mobile data solutions for businesses. We enable field-based employees of all descriptions to exchange time sensitive information with corporate back-office systems, wirelessly from a mobile device.

Every day, our solutions are used by thousands of mobile employees across a wide range of industry sectors. Founded in 1999 and headquartered in London, Pervasic has become one of the most experienced mobile application specialists in Europe with a successful track record in meeting the mobile data challenges in the most demanding business environments.

With our help, you can transform your productivity and make better-informed decisions, reaping a rapid return on investment.

WHAT MAKES US DIFFERENT?

Our success is founded on specific qualities:

Specialist industry expertise

We focus on workplace mobility – and nothing else. We have the thought leadership, intellectual property and domain knowledge.

Innovative, system-friendly technology

We own our application and client, so we can be innovative and integrate our technology as needed.

Working online – and offline

Pervasic solutions enable your workforce to maximise productivity by continuing to work, even when there's no network coverage.

Bespoke, end-to-end solutions

We provide high-touch, tailored and flexible solutions ... a fully-managed service with predictable costs, freeing your IT department to focus better on

its core activities. Our solutions are highly scalable too, from 25-1,000 users.

The widest choice of features

With Pervasic, you get a best-of-breed solution. We work with all the major mobile operators, systems integrators, software vendors and resellers.

Delivering a rapid ROI

You can enjoy a low total cost of ownership (TCO) and a rapid return on investment (ROI) through cashable savings, increased productivity and same-month invoicing to accelerate payments.

Enabling you to thrive

With Pervasic, you can transform your business processes and enjoy new levels of management visibility and increased customer satisfaction, gaining a competitive advantage.

Mobilising the field workforce

OUR SOLUTIONS

Pervasic mobile solutions enable organisations of all sizes to become more productive, efficient and profitable within weeks – by harnessing proven technology that can work seamlessly in virtually any IT environment.

Equipped with easy-to-use PDAs loaded with accurate information, your mobile workers are empowered to complete their jobs more effectively. Meanwhile, accurate information is relayed wirelessly to your back-office system – giving you real-time visibility and reporting on the status of every job and asset.

We offer the following solutions:

- **ENTERPRISE SOLUTIONS**
MobileOne® Enterprise is an end-to-end managed solution, custom-built to address the specific requirements of larger organisations and/or complex environments.
- **INDUSTRY SOLUTIONS**
Pervasic also offers fully-featured mobile workflow management applications to give organisations in the following sectors a head-start: Public Sector & Commercial Housing, Field Service, Sales & CRM, Construction and Transportation.
- **SMALL & MEDIUM BUSINESS SOLUTIONS**
With MobileOne® Express and Dynamic Forms, small and medium-sized organisations can mobilise their workforce simply, quickly, and with minimum investment.
- **MODULES**
Pervasic solutions can be enriched by a wide range of configurable, plug-in modules.

Typically, our solutions take 12 weeks or less to go 'live'. What's more, you can also normally expect a return on your investment within the first 12 months.

THE POWER BEHIND PERVASIC

Pervasic's mobile solutions are delivered as a managed service from resilient, carrier-grade data facilities to meet the level of service, security and availability demanded by some of the UK's largest organisations.

At the heart of every Pervasic solution is the MobileOne® Platform, a sophisticated communications and data management platform at the forefront of mobile data technology. Meanwhile, our Professional Services team provides the expertise and support to ensure that every implementation is a success. Services include planning, implementation and rollout.

WHAT OUR CUSTOMERS SAY ABOUT US

Pervasic were excellent to work with ... they made our operational field problems go away, have been extremely flexible throughout the whole project and are extremely competent when it comes to mobilisation. It's revolutionised the way we run our business.

***Steve Herbert**, Operations Director for Homeserve's Warranties Division*

We have seen very rapid adoption by our operatives and this has helped us to dramatically improve our service levels while more than meeting our return on investment objectives.

***Mark Tune**, Building Services Division, Chesterfield Borough Council*

Our objective is to increase flexibility to meet the changing needs of our clients. Before Pervasic, we had no real way of capturing that information. Now we are able to measure our performance with meaningful data.

***Phil Oades**, Service Manager for Responsive Repairs and Gas, Kier Group*
